

WHITEFIELD GLOBAL SCHOOL

QUALITY OBJECTIVES

1. The school will provide equal opportunity to all students to achieve age-appropriate learning outcomes through its unique holistic curriculum.
2. The school seeks to foster socio-emotional resilience, skill development, and 21st-century skills for lifelong learning in students through technology-enabled teaching-learning practices. This will be achieved by integrating any two of the following strategies:
 - Implementation of mental health initiatives
 - Integration of skill-based programs
 - Emphasis on cultural diversity and sensitivity
 - Promotion of humanistic values
 - Encouragement of global leadership qualities
 - Cultivation of self-motivational skills
 - Involvement in Community Engagement Programs
 - Ensuring 100% student participation in all in-house programs and at least one intra-school competition
3. The school will introduce a minimum of two innovative teaching-learning pedagogies through in-service training sessions for all teachers each year.
4. The School will engage stakeholders in performance analysis of the school at least once a year for its continual improvement.
5. The school will provide a safe learning campus environment to ensure the attainment of all the above quality objectives year on year.
